Preface

The *Pakistan Journal of History and Culture (PJHC)* is amongst the most widely read research journals in Pakistan. It is being published biannually since 1980 quite frequently. By the year 2012, it had published 66 issues. Articles, research notes, review articles, comments, rejoinders and book reviews appearing in the journal are abstracted and indexed in the *Periodica Islamica* (Malaysia), *Historical Abstracts* (Singapore) and *America: History and Life* (USA).

The PJHC has always tried to encourage the promotion of quality social science research in Pakistan. With its continuous improvement approach the journal had long been planning to facilitate its readers with the provision of easy accessibility and navigation of all the possible emblems of the published stuff as per requirement like article title, author, subject or year wise. Thus the PJHC team decided to prepare a cumulative index of the journal covering the period from 1980 to 2012.

The present PJHC Cumulative Index is developed following the standard style of the Library of Congress (USA). It has segregated all the published objects into three main categories i.e. Author, Title and Subject. As far as the author names are concerned they are inverted as per the standard method of the Library of Congress. However, the hyphenated names are not inverted and are written in their original sequence. Titles of the articles are noted down alphabetically in the ascending order. Finally, the subjects are categorized quite according to the international standards.

This certainly required rather a highly sophisticated expertise which was duly done by quite a professional referee Syed Hussain Tahir Naqvi, the Librarian of the National Institute of Pakistan Studies (NIPS). Then we also availed the technical support of the Publication Section of the NIHCR, especially of Mr. Munir Khawar, Muhammad Saleem, and Imran Zahid. Time to time assistance of Mr. Hazoor Bux Channa, Rao Tahir and Mushtaq-ur-Rahman also made

this venture possible. Administrative support of Azhar Mahmood, Adnan Yousaf and financial support of Atlas Khan was also of great value. I personally thank all the research team of NIHCR a valuable input of Syed Umar Hayat, Senior Research Fellow and Dr. Rahat Zubair Malik, Research Fellow, is appreciable for their unconditional support in every regard. At last but not at all least, I feel myself helpless to rightly acknowledge the love and affection of Prof. Dr. Eatzaz Ahmed who always offered his venerable favours in this and all my other academic ventures.
